

Download file xls tersebut

• Pindahkan masing-masing tabel pada sheet di file baru seperti di atas

• Convert masing-masing file excel di atas menjadi csv

Search big query

Pilih console

Ketik nama di project name menggunakan tanda – untuk spasi

- Cari fitur bigquery
- Pilih BigQuery Studio menggunakan project yang sudah dibuat tadi

Create dataset

• Add dan pilih local file

- Upload tabel yang sudah diconvert tadi dengan format csv
- Masing-masing tabel diupload dengan cara yang sama

• Ceklis auto detect

• Jika sudah pilih create table agar terupload
